

in comment to fcc's privacy act or law. it is wonderful not to be bothered by telemarketing and indiana's law fulfils this nicely and the fcc's law will only weaken thisprotection.

the indiana law has provided a nice quiet time at home(lets keep it that way). i don't want to be bothered by unwanted telephone calls.

i don't need a bunch of lobbist buying off votes to get a loop-hole law in to replace indiana's law.

Respectfully

john & carol hurd
